

English – Tetum glossary

Terms used across the SORT IT training materials, the website and the platform.

Reviewed terminology

Every term below was checked by a Tetum-speaking colleague in August 2026. This glossary is the **single source of truth** — the training materials, the website and the platform all draw their Tetum from this list, so a correction made here reaches everything.

Other terms

English	Tetum
To clean (data)	Atu hamoos dadus

Where a term is normally said in English or Portuguese even when speaking Tetum — for example **statistically significant** — it has been left in English deliberately. Forcing a translation nobody uses is worse than leaving it.
